

# ***Force Allocation & Capabilities Tool (FA&CT)***

# ***Force Allocation & Capabilities Tool (FA&CT)***

FA&CT allows an AO/planner to retrieve an “MTOF” force list from a library, tailor as required, generate aggregate lift requirements, and match requirements to available units. It allows an AO/planner to build a “simultaneity stack” of multiple “MTOF” force lists to determine total requirements and develop force lists for various studies by year of the POM.

Once completed, the new Gaming Menu allows player to capture various unit activities (training, exercise/mission, redeployment, recovery) for NTC/JRTC/CTC, BEF, Joint/Army exercises and TEPs as he executes the scenarios during a Dynamic Commitment

# ***Current Capability***

- Ability to review / edit existing QDR-97 MTOFs
- Templates for heavy & light divisions, SF Group, eBDEs, Force XXI design
- Determine Lift Requirements for MTOFs
  - Personnel, Cubic Feet, Square Feet, Weight
- Build simultaneity stack
- Match available UICs to MTOF requirements
- With strawman, can build primary mission forces and EAD combat support forces.
- Ability to track unit activities and deployments.
- Display SRC capability.

# ***Ongoing FA&CT Work***

---

- To allow a player to allocate forces from a history table that captures on going activities
- Link to Unit Readiness data
- Update MTOF library with new scenarios
- Build templates for interim force
- Build cross-walk table that captures changes in unit capabilities of the interim force
- Update MTOFs with interim force design
